

## Multi-Ingredient Processed Product Formulation – WSDA Organic Program

Business Name: \_\_\_\_\_ Cert No: \_\_\_\_\_

### Product Information

1. Product name: \_\_\_\_\_

### Ingredient Information

Ingredient <i>(List names as they appear on supplier documentation)</i>	Manufacturer or Supplier <i>(List the certified source for organic ingredients)</i>	Agency that issued organic certificate for ingredient	Organic content <i>(*See note below)</i>	Weight or Volume of Ingredient	Adjusted weight or volume <i>(Organic content multiplied by weight or volume)</i>

*\*Report the organic content of raw organic agricultural ingredients as 100% and processed organic ingredients as 95%. You can report processed organic ingredients higher if listed as 100% Organic on the supplier certificate or if you have verification from the certifier of higher organic content.*

## Multi-Ingredient Processed Product Formulation – WSDA Organic Program

### Calculating Organic Content

2. Adjusted weight or volume of **organic** ingredients: \_\_\_\_\_  
*Sum of adjusted weight or volume*
3. Total weight or volume of **all** ingredients **excluding** salt or water: \_\_\_\_\_
4. Percent organic content: \_\_\_\_\_  
*Adjusted organic weight or volume (#2) divided by the total weight or volume (#3)*

### Calculating Yield

5. Total weight or volume of **all** ingredients **including** salt and water per batch: \_\_\_\_\_  
*Sum of Weight or Volume of Ingredient*
6. Average total weight or volume of finished product per batch: \_\_\_\_\_
7. Percent yield: \_\_\_\_\_  
*Total weight or volume of finished product (#6) divided by total weight or volume of ingredients (#5)*

### Processing Aid Information

Processing aids are substances added to a product for a technical or functional effect during processing that are not present in the product at significant levels following processing.

Processing aid name	Manufacturer or producer name	Purpose or function

*In order to qualify for the 100% Organic claim all processing aids must be certified organic. Include a copy of the current organic certificate for any certified processing aids. Please note that the Organic Material Review Institute (OMRI) is not an organic certifier and does not issue organic certificates.*

**Attach additional pages if needed. Alternative records may be submitted in lieu of this form provided they include all applicable information.**

A complete product application is needed for any new products. The [Processed Product Application](https://agr.wa.gov/Organic) is available online at: <https://agr.wa.gov/Organic>
